RIDE IN STYLE!

CARS & TRUCKS

Driving School

Discover our wide range of battery-powered cars as the core element of this attraction which is based on the creation of a miniature traffic environment. Here children have loads of fun while improving their driving skills. Edutainment at its best. The driving school is a timeless attraction that can be installed at large or small amusement parks as well as at other kinds of facilities. We'd love to help you realize this concept at your facility!

THE MOST FUN AT THE FARM!

TRACTORS

Children's Farm

A top pick for farm parks, zoos and similar locations at countless locations globally. Kids love driving and with their authentic design, our tractors are a perfect fit for rural settings and similar venues. These vehicles are robustly designed and can be driven on almost any flat surface. An open area or loop track can be used and themed with farm-related buildings, hay bales, and other suitable elements, this attraction is a perfect fit for a setting with a rural atmosphere.

PULL UP ANCHORS, SAILORS!

BOATS

Boating School

The Boating School is a fun-packed ride that allows kids to test their navigation skills and become captains of their mini vessels. Parents, friends, and siblings will be the happy passengers. Our boats are sturdy and have capacity for up to three people. The battery capacity is excellent and will ensure a full-day operation. The boats can be used either in an open water area or navigated through a loop. Both layouts are suitable to get a smooth and exciting experience for the entire family!

LET'S DIG IT!

CONSTRUCTION MACHINES

Construction Zone

With our construction-themed machines, you are sure to create an attraction loved by children of all ages. Unlike our other products, these machines are stationary, which represents a space-saving solution. The three products can be combined in one play area to create a construction zone where kids can role-play as construction professionals or simply enjoy the fine mechanics of these machines. Our scalable and themed cage system ensures a safe and carefully designed attraction from start to finish.

PEDAL TO THE METAL!

RACING CARS

Racing Academy

Our racing vehicle is a great attraction that suits all environments. Particularly, it fits like a glove in car-themed amusement parks, racing tracks, and go-kart facilities oriented to young kids. By equipping the course with racing attributes, the ride will shine and the true spirit of competition will arise among the audience. Taking curves has never been so fun!

REALIZING YOUR IDEA!

CUSTOM DESIGN

Custom Design

A distinctively themed environment combined with customized equipment will make your attraction stand out, improving the customer experience and enhancing your brand recognition. Our projects encompass miniature reproductions of car brand models, and a variety of designs based on films, cartoons, and toys. Even minor customizations can set your attraction apart and attract more customers, ultimately benefiting your business.

MAKE A SPLASH!

Water Play

In collaboration with top manufacturers of water park equipment, we offer a wide array of water play products, ranging from water play structures of different sizes to single and multiple slides. Whether you are looking for a small water play structure as a complement to other kinds of activities, or advanced water slides for water parks, we can cater to your needs. We are also able to undertake custom design projects.

FUN FOR ALL!

Playground

SBI Play was established to create environments for active play and outdoor exercise. In this segment, we work together with a handful of European manufacturers and can deliver playground equipment, outdoor fitness solutions, and park furniture to build inclusive and durable outdoor spaces full of fun and challenges for everyone. Our products are often found in public playgrounds, residential areas, campgrounds, hotels, sports and leisure centers, parks, and schools.

PLAN FOR SUCCESS!

Guidance & Consultation

When it comes to designing and planning a park or attraction, numerous factors need careful consideration. At SBI, we bring four decades of industry experience to the table. We leverage this expertise to help you maximize the potential of SBI rides and align them with your specific situation and project needs. We frequently serve as collaborative partners, guiding you through every stage, from the Master Plan and Layout to Implementation and Daily Operation.
