TURNKEY FOR CONSTRUCTION ZONE

Our scalable and themed fence system ensures a safe and carefully designed attraction from start to finish. Durable metal frame with welded wires. Powder coated. Zinc treated when for outdoor use. Modular system. Customizable to fit your location perfectly. Many theming options possible.

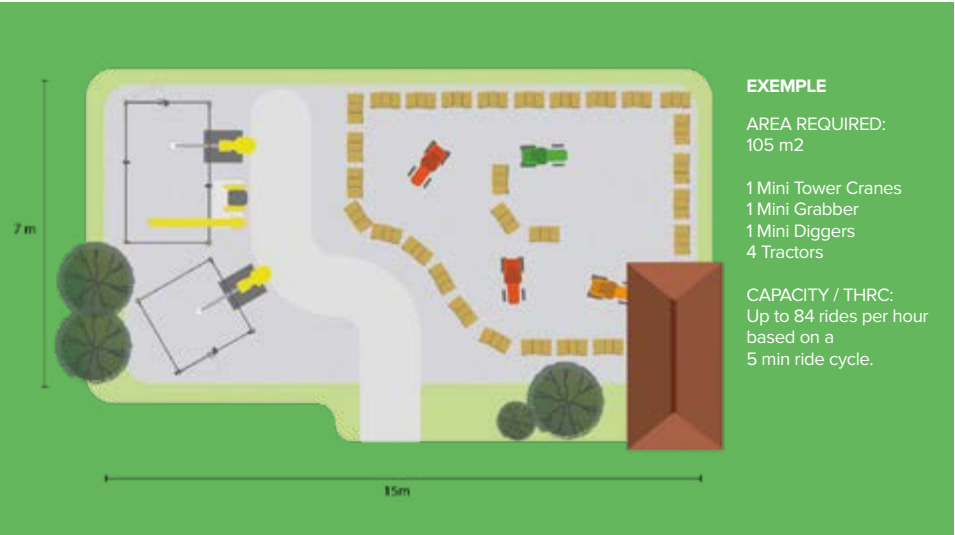

GUIDANCE & CONSULTATION

At SBI we have 40 years of experience from this industry. We use this experience when assisting clients to get the most out of our attractions. Your success is our success. Please feel free to involve us at any stage of your project.

- Master Plan: Define your goals, customize attractions, and facilitate stakeholder communication.
- Revenue Enhancement: Ensure your attraction investments pay off with ROI analysis and scenario planning.
- Design and Planning: Tailor your attraction design and layout to your unique situation.
- Smooth Implementation: Execute the plan efficiently and prevent errors with our experience.
- Daily Operations Excellence: Fine-tune daily operations for efficiency and correct resource allocation.

Contact us today to discuss your project. We look forward collaborating with You!

SMOOTH OPERATION

Our solution is perfect for pay-and-play facilities. Users insert coins or tokens for set play durations. We stock various versions and can accommodate different coins. Our products come with mechanical coin acceptors, and some can use electrical ones. But we also have electrical options or you can use tags etc.

● **Coin & Token Operation:**
Our solution for pay-and-play facilities allows users to insert coins or tokens for set playtime. We offer various versions in stock and can accommodate different coin types upon request. Most products feature mechanical coin acceptors, with electrical options available if needed.

● **Tokens:**
Using tokens instead of cash streamlines transactions, offering pricing flexibility and volume discounts. Consider a token dispenser with multiple payment options or card payment capabilities for efficient sales. We stock two token types, each compatible with dedicated token acceptors.

● **Card Reader:**
Boost sales and reduce cash handling with a card reader that accepts payments from physical credit cards or mobile devices. A card reader is an excellent payment option for token dispensers too.

Support and spare parts give you operational reliability

At SBI Sweden, we provide fast technical support, spare parts, and minimal downtime. New or long-term customer, access manuals on our user-friendly portal. Contact us at order@sbisweden.com for immediate assistance.

OUR TEAM

Our everyday work is shaped by attention to detail and close and friendly contact with all the people we work with. Undoubtedly, our team is our greatest asset. Talented individuals, who share their passion for bringing smiles and joy to children, power SBI Sweden. We pride ourselves on our high degree of specialization, and the close ties that bind us to our customers.

” Our products make children feel independent and proud of doing something for real while sharing the experience with their families and other kids ”
