About Us

Attractions for Children

Since the early 1980s, SBI Sweden has been a leading supplier of reliable interactive kiddie rides, specializing in top-quality miniature vehicles, including cars, trucks, tractors, boats, and construction-themed machinery for children.

Our dedication to customer satisfaction, top-quality products, and outstanding after-sales support is valued by a diverse clientele, from large amusement parks to small family farms. We prioritize innovation, genuine design, and craftsmanship while maintaining a global reach with a familial approach. Our battery-powered

products, made in Sweden, emphasize autonomy, quality, and durability, offering interactive experiences for children. We serve a broad range of sectors, including LEGOLAND and Universal Studios, and customize products for kids aged 3-11. If you're not yet a customer, contact us to see how we can support your business.

SBI CAGE SYSTEM

MEASUREMENTS:

L 1600 mm, W 1640 mm, H 2200 mm.
L 5 ft 3 in, W 5 ft 5 in, H 7 ft 3 in.

TECHNICAL SPECIFICATIONS SBI Cage System

Fully customizable with a range of theming options to perfectly fit your location.

- Outdoors: Galvanized Steel Construction
- Indoors: Steel Construction
- Black Powder coating
- Easy to mount
- Perfect for Mini Tower Crane and Mini Digger / Grabber.
- The swing radius of the Mini Digger / Grabber is adjusted to fit in the cage.
- Heavy duty adjustable platforms with LED Neon lights.

This safety cage is specifically engineered to allow machinery to operate safely without requiring constant staff supervision. It adheres to all relevant regulatory standards, ensuring the highest level of protection. Beyond its functional benefits, the cage is designed to enhance the "Construction Zone" atmosphere, adding an authentic industrial feel to the environment. The structure also provides ample space for signage, making it an ideal platform for displaying important messages or promotional content, further integrating safety with effective communication.

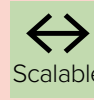

Enhance the Experience with Custom Signage

To elevate the optical impact, we offer signage that enhances the construction-themed experience. We can also assist with special requests to meet your unique needs. Imagine how a simple sign can transform and elevate the entire experience.

Plan for success

Partner Setup

We want to make the most out of the setup and therefore location is key. We know from experience that our attractions draw attention and are really appreciated and the location is key for success.

Strategically placed in central locations to ensure maximum visibility, our installations are protected from the elements, offering an enjoyable experience regardless of weather conditions. By keeping guests entertained, our attractions encourage longer visits, enhancing overall foot traffic and dwell time. With our standard revenue share model the venue will have 15% on all revenues. We collaborate with a local partner to guarantee smooth installation and operation, ensuring a hassle-free integration into your venue.

Target Audience: Families with children and general visitors
Location: High-traffic malls and similar venues
Benefit: Engages visitors and encourages longer stays
Placement: Central location to maximize exposure
Protection: Indoor or covered to shield from sun and rain
Revenue Share: Standard 15%
Local Support: Partner available for seamless integration

Visitor Flow and Safety

We understand that many parameters have to be met at each venue. We'd love to discuss these with you and together plan for exceptional results.

Effective management of visitor flow is essential for ensuring safety and enhancing the shopping experience. Properly distributing visitors throughout the shopping center helps prevent overcrowding and improves overall safety.

Visitor Flow: Strategic management of guest movement avoids congestion and ensures smooth access to stores and amenities.

Safety Measures: Effective flow management reduces risks and ensures that emergency exits and safety features are easily accessible.

Capacity Control: Monitoring the number of visitors helps maintain a comfortable and secure environment.

Strategic Placement: Thoughtful placement of stores and amenities promotes balanced visitor distribution and reduces bottlenecks.
