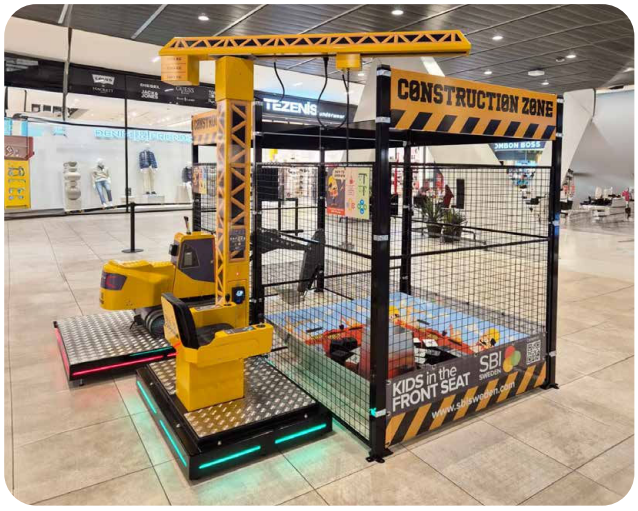
Cage System



Fully customizable with a range of theming options to perfectly fit your location.

- **Finish:** Black PPA571 / Powder Coated.
- **Platform:** Equipped with anti-slip feet.
- **Installation:** Easy to mount.
- **Compatibility:** Suitable for Mini Tower Crane and Mini Digger / Grabber.
- **Swing radius:** Adjusted to fit the Mini Digger / Grabber inside the cage.
- **Application:** Box / pit for digging, grabbing and lifting.

The safety cage enables secure machine operation with minimal supervision and meets all regulatory standards. It reinforces the “Construction Zone” theme and provides space for signage or messaging. The sturdy base with adjustable LED lighting adds visual impact while discreetly concealing cables. Leveling feet ensure stability on uneven surfaces. A sleek, safety-focused solution ideal for interactive environments.

Custom Theming.

Signs Kit available.

AREA Recommended minimum area

1 Machine: 4,7 m² / 50 sq ft.

CERTIFICATES.

Quality: CE marking, ISO 9001 & ISO 14001.

3D / BIM

Revit and DWG models are available.

This safety cage is specifically engineered to allow machinery to operate safely without requiring constant staff supervision. It adheres to all relevant regulatory standards, ensuring the highest level of protection. Beyond its functional benefits, the cage is designed to enhance the "Construction Zone", adding an authentic industrial feel to the environment. The structure also provides ample space for signage, making it an ideal platform for displaying important messages or promotional content—seamlessly integrating safety with effective communication.

Enhance the Experience with Custom Signage

To elevate the visual impact, we offer signage that enhances the construction-themed experience. We can also accommodate special requests to meet your unique needs. Imagine how a simple sign can transform and elevate the entire experience. You can customize the signs and bottom plates with your own design. Plastic signs can be easily attached to the grid.
